Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 10-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Conway et al (fig. 2 emb) in view of Sachs and either Smith or Wagner et al. Conway et al discloses a container including a hermetic pouch 3 having two vertical seals 15, 17 extending from a top surface and separated by a vertical cut 11. The pouch includes a pour pipe 21 between the vertical cut 11 and a side seam 9. The container includes a tear open section 67 which opens to allow the contents to be dispensed through the pour pipe of the pouch. Conway et al does not disclose formation of the bag with a side fold surface and top, bottom and second sealed sides and does not disclose adhering the pour pipe to a pour spout. Sachs teaches that it is known to make a pouch for liquids with a vertical fold (18) and three side seals. Each of Smith and Wagner et al teaches that it is known to secure a pouch pouring element to a pouring support or spout. It would have been obvious to make the pouch in Conway et al with a folded configuration as taught by Sachs to enable formation of the spout seam longitudinally of web of material without the cost of extrusion of the plastic as a tube. It would further have been obvious to secure the pipe to the section or spout 67 in Conway et al as taught by either Smith or Wagner et al to provide support and stabilize the pipe during dispensing of the contents. It is noted that no distinction is seen between the container claimed and that of modified Conway et al as a

result of the claimed intended positioning of the pipe/spout in a closed position after opening, i.e. the pipe/spout are considered capable of being positioned in a closed position by folding them inwardly and behind the wall 55. Also, with respect to claim 11, note is made that the spout of Conway et al is considered long enough to be trapped by spout if so desired.

Response to Arguments

3. Applicant's arguments with respect to claims 10-14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

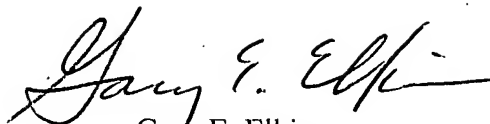

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
